Letter Request

***Note:** Mac users working in "Preview" instead of Adobe Acrobat will need to "print" the document and "save as a PDF" before sending a copy back to project review.

Carlisle Rep Information:
Contact Name: _____
Company Name: _____
Address/Phone: _____

Applicator Information/Addressee:
Contact Name: _____
Company Name: _____
Address: _____

Warranty Information (refer to Carlisle Specifications for acceptability):
Warranty Term: 5 Warranty Wind Speed: None

Project Information:
Project Name: _____Location (City/State): _____
Roof Area Dimensions: _____Roof Height: _____Roof Slope: _____
Roof Status: New Construction
*If applicable, list existing components in order from deck up
_____
Building Usage: Apartment / Condo

Assembly Information:
Deck Type: Steel 22-Gauge or Heavier Deck Thickness:
Vapor Retarder (if applicable): _____
Thermal Barrier (if applicable): _____
Insulation* (type and thickness): _____
*If multiply layers, list each layer and its thickness in order from the deck up:
_____
_____
Cover Board (if applicable): _____
Insulation Securement Method:
Fastener Type and Spacing: _____
Insulation Adhesive Type/ribbon spacing: _____
Membrane Type & Thickness: _____ Sheet Width: Select
System Type: Fully Adhered Use of Roof: Weather Protection Only
Adhered Membrane Adhesive: _____
Mechanically Fastened Membrane Fasteners/Spacing: _____
Perimeter Edge Condition:
Metal Edging: _____Parapet & Height: _____

Comments:
(List additional designs/assemblies here or fill out a separate form for more elaborate designs).

Letter Request Performance Requirements

IF ADDITIONAL PERFORMANCE REQUIREMENTS ARE NECESSARY TO BE INCLUDED WITHIN THE LETTER, PLEASE FILL OUT THE FORM BELOW.

IF NOT, PLEASE JUST SUBMIT THE MAIN "LETTER REQUEST" PAGE.

Performance Requirements / Quality Assurance (if applicable):

- ☐ Factory Mutual Global Rating: Select
  - ☐ Property Loss Prevention Data Bulletins Listed: FM 1-28, FM 1-29
- ☐ Underwriters laboratories: Select
- ☐ ASTM E 108 or UL 790
- ☐ Miami/Dade NOA
- ☐ Trinity Report (FL Bldg Code)
- ☐ ICC-ES Evaluation Report
- ☐ ASCE: Select Local Wind Speed: Select
  - ☐ Ground Roughness (select one):
    - ☐ Urban, suburban, or wooded area (Exposure B)
    - ☐ Open terrain w/ scattered obstructions (Exposure C)
    - ☐ Near (within 1 miles) large bodies of water (Exposure D)
  - ☐ Building Use (select one):
    - ☐ Low hazard to human life (i.e. agricultural, etc.) Category I
    - ☐ Not Category I, III, or IV (i.e. commercial buildings, etc.) Category II
    - ☐ Substantial hazard to human life (i.e. schools, public buildings, etc.) Category III
    - ☐ Essential facilities (i.e. hospitals, power plants, etc.) Category IV
